📍 Bangalore 560083

SUMMARY

Motivated intern with a background in project management and research. Gained practical experience through hands-on roles, demonstrating capabilities in problem-solving, teamwork, and adaptability. Possess diligence, quick-learning abilities, and a commitment to achieving company goals.

EDUCATION

RV Institute Of Technology <i>Bachelor Of Science in Information Science And Engineering (CGPA: 9)</i>	Bangalore, India <i>Current</i>
Amity International School <i>CBSE (Percentage: 88.25)</i>	Gurgaon, Haryana <i>03/2023</i>

EXPERIENCE

AI/ML Trainee <i>Class Verse</i> – Created Telegram bot automation using n8n and Chat GPT. – Developed text-to-image website using Lovable and backend using Supabase. – Supervised groups of student volunteers during special projects or activities. – Offered support and assistance to community members.	03/2025 – 09/2025 <i>Bangalore</i>
Intern <i>Stitch Times</i> – Developed mockups or product samples using digital or manual design equipment. – Created logos, icons, illustrations, infographics, and other graphics. – Applied creative abilities and trend knowledge to realign designs with current demands.	11/2024 – 01/2025 <i>Bangalore</i>

PROJECTS

RescuePathFinder <i>Java, Graph Theory, BFS/DFS</i> – Developed a path-finding tool for disaster management to identify the shortest safe routes for rescue teams. – Implemented graph-based algorithms to simulate real-time obstacle avoidance in dynamic environments.
Zero Trust Network Access <i>Python, Flask, PyJWT, pyotp, geoip2</i> – Simulates a secure, Dropbox-like cloud storage client and server with zero trust emphasis. – Implements features like client-side encryption, MFA, and geolocation checks.
Multi-client Chat Room Application <i>Python 3.7+, Socketserver, Threading</i> – Developed a chat application with network auto-discovery and thread-safe client handling. – Implemented robust socket-based communication to support concurrent users.
Style Snap <i>Flutter, Dart, Riverpod, Hive, Material 3</i> – Architected an offline-first closet app using Hive DB for 100% data availability. – Optimized performance for 50+ high-res images via JPEG compression and caching. – Designed 3D card-flip animations and responsive grid using Material 3.

TECHNICAL SKILLS

Languages: Python, C, Java, SQL, Hindi (Native), English (Proficient), German (Elementary)
Frameworks/Tools: Flutter, Supabase, Git, Flask, Riverpod, n8n, Canva
Soft Skills: Public Speaking, Creative Problem Solving, Team Collaboration, Project Management

ACHIEVEMENTS

- **Research Publication:** "Using OWASP Juice Shop in Cybersecurity Education" presented at ICDTE 2025.

INTERESTS

Music and Filmmaking, Strength Training, Half-Marathon Runner, Solving a Rubik's cube in under 30 seconds
